

Mrs. Sharp

Mrs. Sharp is always passionate about her work and works tirelessly to provide assistance to co-workers, parents and students. She keeps us all up and running smoothly by organizing and getting things done on time. She never fails to check-up on students and is often the first to pass along information that someone is in need. She has a big heart and often contributes in helping students in need - often buying something someone needs herself or seeking donations for what is needed. She is amazing - her love for her job, colleagues and the kids shine through in all that she does!

Mrs. Sharp talks to and interacts with parents, transportation, school systems and colleagues daily to assist others and NEVER asks for anything in return. Carol has given her heart and soul to assist GHO and ERI in our mission to educate and prepare these young people to be more successful in the world. Sometimes it takes someone letting you know they care. That is Carol and has been for nearly 20 years of service!!!!

Carol always works hard to help students get prepared for their driver's license testing. She meets with them one on one multiple times a week and patiently helps prep them for the test. She has a great track record of success to boot!

I witnessed Carol interact with a student earlier this week. After realizing the student would not be with any family and would remain in the group home for the holidays (and had experienced lots of family disconnections recently), Carol went out and purchased her a necklace for a gift. She purchased her a cross, helped her put it on and reminded her that she would always have God's love. It was sweet to see and well received by the student (I just happened upon it as the two were interacting quietly). She does these kinds of things all the time and never seeks any recognition. She has spread such love and support to our GHO students throughout the years and deserves a little love of her own.

Carol has worked with staff daily to coordinate reports and training incentives and ensure timely output. However, her true passion comes out when she is given special tasks to assist with - like earlier this year when she helped shop for Thanksgiving food items, fill the gift boxes, and coordinate delivery with parents in need. Whatever special task she is given, she gives it her all and adds that special touch of love.
